THE ALL NEW KIA **SPORTAGE** 2016

The fourth generation of the compact SUV features a bold, progressive design, with the vehicle's designers creating a sense of power and agility from every angle. It creates visual harmony from the tension between the sharp, defined feature lines and smooth surfacing.

The Sportage features not only ground breaking design on the outside, as the inside features a modern layout and greater passenger comfort with more space and less noise.

This is the safest Sportage yet, with a stronger body and new active safety technology. It also features a smoother, more refined ride with greater handling agility.

The all new Sportage will go on sale in Ireland in January 2016, but you won't have to wait that long to see it – our dealers will be the first in Europe to have exclusive first previews. Check dates on the back to find out when the car will be at your local dealer.
