CONVENIENCE AND COMFORT

The new Kia Rio takes your comfort seriously. With advanced features you can add a little extra indulgence to your journey. And thanks to maximized spaciousness, there's always plenty of room for everyone to indulge, stretch out and venture off.

For the action explorers.

No matter what the next adventure, city trip or open road brings, the Kia Rio is ready and willing. With its roomy interior, generous 325 litres of cargo space and flexible folding rear seats, everyone and everything can be comfortably accommodated, which means you'll always be ready for anything.

CONVENIENCE AND COMFORT

1. **60:40 split-folding rear seats** The rear seats split 60:40 and fold flat to give you total flexibility for people or cargo.
2. **Full-folding rear seats** Rear seats fold flat to accommodate long or bulky items in an extended cargo space.
3. **Adjustable cargo floor** Position the cargo-area floor higher to be flush with the folded seat backs (left), or lower to accommodate tall items (right).

Hill Start Assist Control (HAC) Get added support for those tricky hill starts. Hill Start Assist Control will prevent you from rolling backwards.

Straight-Line Stability (SLS) When braking in a straight path, SLS senses any difference in applied brake pressure between the right and left wheels, and adjusts the pressure to counteract yaw and maintain straight-line stability.

ESC with VSM

Electronic Stability Control (ESC) In the event of sudden braking or turning, the ESC system activates to regulate engine torque and distribute braking force independently, slowing you down safely with maximum control.

Vehicle Stability Management (VSM) Along with motor-driven power steering, VSM helps ensure that the Rio remains stable when simultaneously braking and cornering.

SAFETY AND ASSISTANCE

No matter what sort of driving challenges you encounter, the Kia Rio always puts you and your passengers, safety and peace of mind first and foremost.

High Beam Assist Cameras embedded in the windscreen detect oncoming vehicles at night and automatically switch to a low beam to avoid dazzling other drivers. Once the oncoming vehicle has passed, the high beam is switched back on.

Reverse Parking Distance Warning (PDW) with Switch On/Switch Off button Ideal for confident parking, PDW uses ultrasonic sensors mounted on the rear bumpers to warn of any obstacles in front or behind when manoeuvring into a parking space. The audible beeps can be switched on or off.

51% AHSS

The new Rio uses 51% Advanced High-Strength Steel (AHSS) to deliver phenomenal body rigidity, enhanced cabin protection and dynamic performance.

In the Kia Rio, a whole host of protective materials and highly advanced features have been incorporated to help to keep you safe, supported and in control.

8 zones

 with hot-stamped components

With hot-stamped components in 8 core stress areas, the Rio's strengthened body structure helps provide even more crash protection.

For the peace of minders.

SAFETY AND ASSISTANCE

The Rio is built around a dedication to safety. From the advanced materials of its body and their placement, to the incorporation of the latest, most vigilant and most proactive driver assistance systems, including specialist sensors and radar equipment – safety is always paramount.
