¹⁾ All models are type approved to WLTP (Worldwide harmonised Light-duty vehicles Test Procedure) standards. WLTP is the official test regime for passenger cars and the emission figures will be used to calculate

the vehicle tax, Taxation in Ireland is currently based on WLTP measurements. The exact CO₂ figures of the vehicle will vary according to any options and packs specified.

Figures shown reflect standard vehicle without options. The Volvo car configurator can display the estimated CO2 and vehicle range according to selected packs, options and wheels. Your retailer will be able to confirm the CO₂ valuesonce the vehicle order has been confirmed by the factory for production.

- 1) For best performance and lowest fuel consumption 98 RON is recommended, 95 RON can be used for normal driving.
- Unbraked towing weight must not exceed 50% of kerb weight up to a maximum of 750kg.
- ³⁾ The results do not express or imply any guarantee of the fuel consumption of a particular car.
- Official fuel consumption figures are obtained under controlled test conditions and as such consumption achieved on the road will not necessarily accord with the official test results. Factors including driving styles and road, car and weather conditions will also have a bearing on actual fuel consumption achieved.
