¹⁾ All models are type approved to WLTP (Worldwide harmonised Light-duty vehicles Test Procedure) standards. WLTP is the official test regime for passenger cars and the emission figures will be used to calculate the vehicle tax. Taxation in Ireland is currently based on WLTP measurements. The exact CO₂ figures of the vehicle will vary according to any options and packs specified.

²⁾ Figures shown reflect standard vehicle without options. The Volvo car configurator can display the estimated CO₂ and vehicle range according to selected packs, options and wheels. Your retailer will be able to confirm the CO₂ values once the vehicle order has been confirmed by the factory for production.

³⁾ Delivery and Related changes not included
